## AN OFFICE POD LIKE NO OTHER

As climate impact becomes more urgent, striking a balance between the workforce and carbon reduction has never been more important. Industries are recognising that flexibility and functionality is the key as more and more staff are working, all or in part, from home.

A hybrid office pod powered by the sun could form a vital solution for many businesses which is why urbanpods developed SOLÄR, an office pod like no other.

Kind to nature, SOLÄR offers staff the flexibility to work anywhere, as well as saving business money and reducing their carbon footprint by using clean, sustainable energy – the sun.

Kind to the budget too, it comes complete to your workplace or home, fully finished and ready to use. It offers the perfect workforce solution for many businesses with free power for most of the year!!

*2 solar panels*

*reflective glass*

*desk and storage*

## SOLÄR 1 & 2

Made from the most advanced technology on the market today, the SOLÄR comes in two sizes. It offers as standard:

- » Solar panels, a hybrid inverter that allows you to turn the sun's energy into power, and a standard range battery for power storage
- » High quality insulation
- » Infra-red heating
- » Solar reflective glass
- » An integrated desk and storage
- » An easily movable structure (on wheels)
- » Live streaming energy usage data and control system
- » 10m back up power cable (for the dark winter months or recharging)

### **The benefits:**

- » Happy flexi-working staff
- » Contribution to carbon emissions targets
- » Off-grid solution - so no infrastructure headaches
- » SOLÄR will save you money
- » Zero maintenance
- » Kind to the planet

**SOLÄR 1** £12,916 +VAT

- foot print 2.1 x 2.1 m<sup>2</sup>
- 2.2 m high

**SOLÄR 2** £14,583 +VAT

- foot print 2.8 x 2.1 m<sup>2</sup>
- 2.2 m high

# FEATURING SOLAR

Standard range battery (estimated range 6 hours\*), solar panels and hybrid inverter (included as standard)

Long range battery (estimated range 8 hours\*) plus 2 additional batteries and upgraded inverter - **£700 + VAT**

If you need more than the standard wheels, adjustable feet gives the pod a more permanent levelling foundation system (adjustable to 100 mm).  
**£250** for 4 feet

Personalise your pod with strong business branding, simply change the colour of the pod or wrap your pod with a beautiful inspiring picture.

**£700 + VAT**

For hybrid connection and longevity of battery usage we have included a back-up cable: 10m included in price | 20m **£150** | 30m **£200** | 40m **£250**

*\*Estimated range based on use with clear and direct sunlight. Please refer to manual.*

# THE SOLÄR POD

- » is good for your pocket
- » it is good for the planet
- » is good for business
- » is good for the soul

## THE FACTS

Solar energy is a completely free source of energy, and it is found in abundance.

Solar energy produces no pollution, has no environmental effects and is ecologically acceptable.

By relying on battery backup, solar energy can provide electricity 24x7, even on cloudy days and at night.

Solar panels are virtually maintenance-free since the batteries require no water or other regular service and will last for years. Once solar panels are installed, there are no recurring costs.

Our SOLÄR pod is clever as it always uses the solar power first. If usage is too high it will convert to the back-up power.
