urbanpods™

OUR COLLECTION

Our architecturally designed pods comply fully with building regulations. This means that planning consent is not normally required and you can have your pod built at a time that suits you. With an external height of just 2.5 meters you can position your pod closer to the boundary.

BESPOKE PODS

If you can't find your perfect pod within our current range and you are looking for a bespoke option, we can design and make one especially for you.

Whatever your requirement, we can design and build a pod to suit your needs and because they are modular we can do this cost effectively at a price you'll like.

Your space. Your pod.
